ISTRUZIONI PER L'USO

Tutte le cuffie antirumore presentate in questa istruzioni sono dotate di fissaggi all'elmetto in materiale termoplastico e cuscineti imbottiti in plastica espansa. Queste cuffie antirumore sono progettate per proteggere l'utente da rumori nocivi, quando utilizzate conformemente alle presenti istruzioni. Tutti gli altri utilizzi non sono previsti e quindi non sono consentiti.

Con il presente documento KASK S.p.a. certifica che le cuffie antirumore SC sono conformi al regolamento UE 2016/425 e ad altre direttive applicabili per soddisfare i requisiti per il marchio CE. La dichiarazione di conformità completa è disponibile su www.kask.com.

For the data of declaration, vedere la stampigliatura all'interno dell'auricolare. La durata prevista del prodotto è di 5 anni.

Avvertenze

Per il massimo comfort e per garantire la migliore protezione, usare, tenere e regolare le cuffie antirumore secondo quanto indicato in seguito. Se le istruzioni non vengono seguite, l'attenuazione del rumore può diminuire.

Leggere attentamente le seguenti istruzioni

- Le cuffie antirumore, i dispositivi antirumore Solo/Uso in ogni momento permette di proteggere completamente l'utente.
- L'uso di cuffie antirumore in aggiunta al divertimento può risultare compromessa con l'uso di una protezione antirumore con eccessiva attenuazione del rumore rispetto all'ambiente in cui è usata.
- Alcune sostanze chimiche possono decomporre il prodotto. Per ulteriori informazioni, contattare il fabbricante.
- Le cuffie antirumore non sono adatte per l'uso in ambienti con un livello di attenuazione sonora delle cuffie antirumore può diminuire notevolmente in caso di utilizzo ad altezze, ad es. di coxiali dalle streglie spesso, macchine di protezione, ecc.
- L'uso di cuffie antirumore può ridurre l'udibilità di avvisi di pericolo.
- L'effetto di attenuazione sonora delle cuffie antirumore può diminuire la capacità di attenuazione del rumore in cuffia.
- Il livello di attenuazione sonora: controllare a intervalli regolari che non ci siano componenti consumati o spaccati o perfette nella protezione.
- Gettare immediatamente il prodotto se mostra segni di corrosione o danni.
- Il kit igienico va sostituito almeno 2 volte l'anno. Scegliere il kit igienico adeguato alla propria cuffia.
- Pulire con un detergente neutro (sapone). Accertarsi che il detergente usato non irriti la cute. Non immergere il prodotto in acqua.
- Il prodotto antirumore non deve essere conservato in un luogo asciutto e pulito, ad esempio nella confezione originale.

Fitting & adjustment

Brush away all hair from the ears and place the hearing protectors over the ears so that they fit comfortably and snugly. The hearing protectors over the ears are completely enclosed by the hearing protectors and that you have never pressure around the ears.

Regolazione e adjust

Remove all hair from the ears and place the hearing protectors over the ears so that they fit comfortably and snugly. The hearing protectors over the ears are completely enclosed by the hearing protectors and that you have never pressure around the ears.

Helmet/Cap mount

Push the hearing protectors helmet attachment into the helmet slot until it locks into position. Place the hearing protectors over the ears and press inward until you hear a click. Adjust the hearing protectors to fit your head and push so that they fit comfortably on your head.

Change of hygiene kit

Remove the old sound absorbing foam and insert the new.

2. Pull off the old ear cushion.

3. Centre the new ear cushion on the hole.

4. Press with a finger along the outside edge of the ear cushion until it attaches all around the edges.

Approved helmet combinations (D)

These earmuffs should be fitted to, and used only with the industrial safety helmets listed in table D.

D3) Adapter

D4) Mittelnwert

D5) Standardabweichung

D6) Anpassungsschuldrückung in dB

C9) GPR/PT und zertifiziert durch (notifizierte Prüfstelle)

Information required by EPA (US)

The level of noise entering a person's ear, when a hearing protector is worn as directed, is closely approximated by the difference between the A-weighted noise level and the NRR.

Example: The environmental noise level as measured at the ear is 92 dBA. The NRR is 25 decibels (dB). The level of noise entering the ear is approximately equal to 67 dB.

Caution: For noise levels dominated by frequencies below 500 Hz the C-weighted environmental noise level should be used.

Warning: The use of this device will reduce its effectiveness in attenuating noise. Although hearing protectors can be recommended for protection against the harmful effects of impulse noise, the noise level at the time of the attenuation of continuous noise and may not be accurate indicator of the protection attainable against impulse noise such as gunfire.

BRUKSANVISNING

Alla hörselskydd som omfattas av detta instruktionsblad får hörselskydd eller hjälmfäste av termoplast, eller nakkbeväring av runtstiftad stål och skumplastfyllda tätningargar. Detta hörselskydd är avsett för att skydda brukaren från tillståndet ljudnivåer när det brukas i samman med denne bruksanvisningen. Det är inte beräknat på andra typer bruk, och andra typer bruk är därför icke tillåtna.

Härmed intygar KASK S.p.a. att hörselskyddet SC överensstämmer med PPE-förordningen EU 2016/425 och andra tillämpliga direktiv för att uppfylla kraven för CE-märkning. Den fullständiga överensstämmedeklarationen finns på följande internetadress: www.kask.com

För tillverkningsdatum, se datumlocken på insidan av hörselskåpan. Produktens förväntade livslängd är 5 år.

Varning!

För att få högsta komfort och skydd av detta hörselskydd skall du använda, sköta och justera skyddet i enlighet med nedanstående instruktioner. Om instruktionerna inte följs kan dämpningseffekten minskas dramatiskt.

Läs följande instruktioner noggrant

- Hörselskyddet ska alltid användas vid vistelse i bullriga miljöer (enligt 100 % bullrigt eller fullgott skydd).
- Miljöerhet att höra värmingsargar kan påverkas vid användning av ett hörselskydd med hög bullerdämpning i hörljudande till miljö.
- Vissa kemiska ämnen kan ha en nedbrytande effekt på denna produkt. Mer information finns tillgänglig i användningsanvisningarna.
- Hörselskyddets skyddsskikt reagerar med:
- Hörselskyddets ljuddämpning kan minska dramatiskt vid användande av t.ex. tjocka glasögonbror, skidmasker, etc.
- Användande av svett/hygieniskydd över tätningargarna kan minska hörselskyddets ljuddämpning.
- Tätningargarna i sig eller på örbelagandet kontrollera att inga delar är utsatta eller att sprickor eller lackfärg finns på skyddet.
- Kassas omedelbart produkten om det uppstår tecken på sprickor eller skador.
- Hygienisera botten utifrån till minst 2 ggr per år. Vår giltiga hygienisera ett halvårsintervall ditt.
- Centra delen av tätningargarna över hålet.
- Tryck med en finger runt om längs med ytterkanterna till tätningargarna snäpper i sina fästena.

Hjälmmontage (A)

Montera hjälmfästet i hjälmen sålunda att det snäpper i. Placera kåpan över öronen och tryck in den i den övre delen av hjälmen tills du hör ett klick. Justera öronkåpan så att hjälmens stift bävsnäppar till bävsnäppar på hjälm.

Byte av hygienisett (B)

1. Ta ut den gamla lydbalborborten (skumplasten) och sett in den nya.

2. Dra av den gamla tätningargarna.

3. Passa den nya tätningargarna mitt över hålet.

4. Tryck med en finger runt om längs med ytterkanterna till tätningargarna snäpper i sina fästena.

Godkännande & Teknisk data (C)

C4) Testad och certifierad mot (standard)

C5) Vekt

C6) Genomsnittsvärde

C7) Standardavvikelse

C8) Ansett beskyttningsnivå i dB

C9) Testad och certifierad av (annat organ)

Godkända hjälmkombinationer (D)

Dessa öronkåpan ska monteras på, och endast användas med godkända hjälmkombinationer i listad i tabell D.

D1) Tillverkare

D2) Modell

D3) Adaptor

Hörselskydd som uppfyller kraven i EN 352-3 finns i storlek small, medium och large. Storleken medum passer de flesta användare. Small och large är designade för användare eller medum inte passer.
