

WGO00001

EN

Heat- and fire-resistant eye protection certified for wildland firefighting and emergency response. Engineered to prevent the ingress of smoke and debris while ensuring clear vision in extreme conditions.

MOUNTING

TECHNICAL DETAILS

 **STANDARD**
EN 166
EN 170
CE

 **CATEGORY**
II

 **MATERIAL**
LENS:
Polycarbonate
FRAME:
Fire retardant TPV
ELASTIC BAND:
Fire retardant PET

 **WEIGHT**
128 g
 **OPTICAL CLASS**
1
 **TEMPERATURE OF USE**
-5°C / +55°C

TECHNOLOGIES

 **FIRE-RESISTANT MATERIALS**
Frame and elastic band constructed from fire-resistant materials designed to limit flame spread in high-heat environments.

 **PROTECTIVE SEAL**
Conforms to the contours of the face to protect against ash, smoke, dust, and airborne debris during operations. It also allows the goggles to be secured in the raised resting position using the integrated Quantum Goggle Holders.

 **SEGMENTED NOSE BRIDGE**
Flexible, segmented design that adapts to different face shapes for improved fit, stability, and comfort during extended wear.

 **HEAT-RESISTANT LENS**
2 mm polycarbonate lens with heat and fire-resistant treatments to maintain clear, protected vision in high-temperature environments.

 **ANTI-FOG**
Interior anti-fog treatment applied to the lens to reduce condensation and maintain visibility in changing conditions.

 **ABRASION AND SCRATCH RESISTANCE**
Exterior lens coating designed to resist scratches and surface abrasion, helping preserve optical clarity over time.

MARKINGS

CODE	COMPONENT	MARKING
