### MATERIAL

Metal

### ENHANCED OPTICAL PERFORMANCE

✓

### WEIGHT

140 g

### LENGTH

190 mm

## TECHNOLOGIES

### MICRO VENTILATION

Provides airflow and breathability while resisting debris intrusion.

### COMPATIBLE WITH GLASSES

Designed for use with corrective glasses.

### DEBRIS PROTECTION

Designed with a reinforced frame for protection against debris.

### HEXAGONAL MESH

The hexagonal mesh pattern provides airflow, visibility and durability.

## ADDITIONAL INFORMATION

### GUARANTEE

3 years starting from the date of purchase.

### LIFE SPAN

10 years starting from the date of manufacture. Life span depends on various factors that can cause deterioration such as sudden temperature changes, the amount of exposure to direct sunlight and the intensity of use. Altered vision and scratches are elements that signal the need to check for deterioration of the visor.

### CLEANING

Clean only with water and mild soap. Allow to air dry. Do not use chemical detergents, solvents, petrol powders as they are too aggressive and could lower the structural resistance of the visor.
