Standard: ANSI Z89.1-2014 Type I, Type II - Class E OPTIONAL REQUIREMENT: LT - HT		

**SAFETY HELMET FOR INDUSTRIAL USE.**  
 For adequate protection this helmet has to fit or to be adjusted to the size of the user's head. The helmet is made to absorb the energy of a blow by partial destruction or damage, and even though such damage may not be readily apparent any helmet subjected to a blow must be replaced. The attention of the user is also drawn to the danger of modifying or removing any of the original component parts of the helmet, other than as recommended by the helmet manufacturer. Helmets should not be adapted for the purpose of fitting attachments in any way not recommended by the helmet manufacturer. Do not apply paint, solvents, adhesives or self-adhesive labels, except in accordance with instructions from the helmet manufacturer. For cleaning, maintenance or disinfection, use only substances that have no adverse effect on the helmet and are not known to be likely to have any adverse effect upon the wearer, when applied in accordance with the manufacturer's instructions and information.
